

Data Governance Made Easy with Matillion + Collibra

Data governance has become the cornerstone of sensitive and flexible data security policies and practices as organizations increasingly invest more resources to become data-driven, maximizing productivity and driving revenue. The data governance market is expected to grow to \$7.5 billion in 2025 at a rate of 22.3% per year.*

Why implement a comprehensive data governance strategy in the cloud?

Secure Vulnerable Data

Secure data with automated and proactive processes.

Increase Data Visibility

A complete picture of the data lifecycle makes it easy to monitor, analyze, and discover new value.

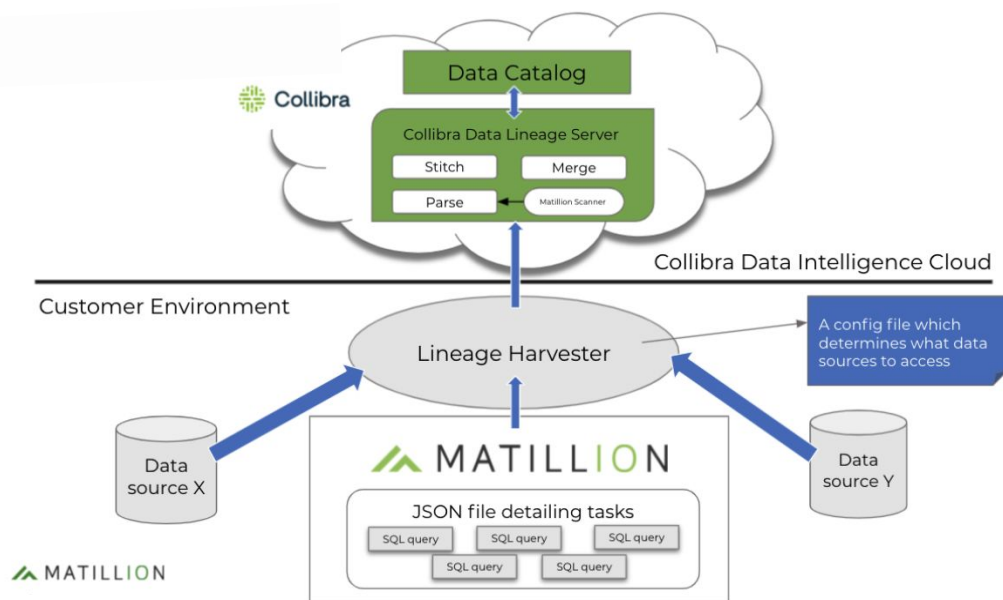

Build Deep Trust in Data

Compliant and reliable data leads to accurate conclusions and confident decision making.

Matillion's Automated Metadata Integration with Collibra.

Monitor movements in your data assets, access easy cataloging, and oversee lineage traceability to make confident data-driven decisions.
