

# Supercharge your Microsoft Azure Synapse analytics platform

Leverage the full potential of your cloud data warehouse with Matillion ETL's cloud-native data integration

"...eliminates the lengthy process of hand-coding and outpaces legacy ETL tools..."

Daniel Yu, Microsoft Azure Data & AI

Matillion ETL for Azure Synapse helps data teams accelerate the journey to a unified cloud analytics platform. Unlock the value of your data cloud faster with low-code data ingestion and transformation on the Azure Synapse Platform.

01

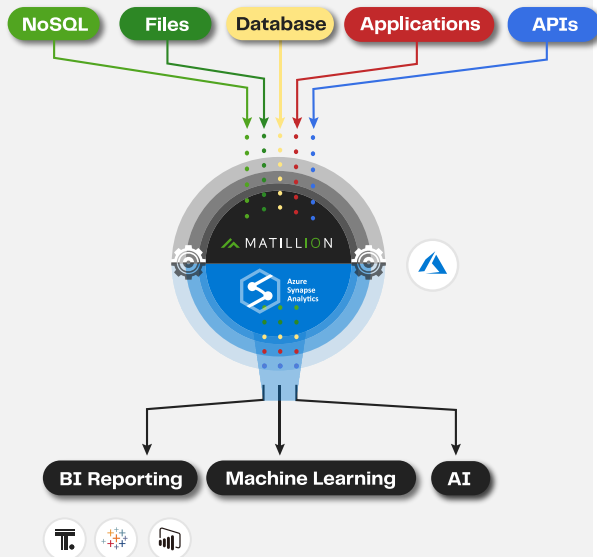

Visually design data transforms for rapid low-code development, while maintaining support for sophisticated custom coded solutions

02

Reduce project development time with a unified experience for developing end-to-end analytics solutions

03

Streamlined data enrichment from a wider range of data sources creates better insights from machine learning models

## Matillion and Azure: Better together

- Flexible compute resource allocation lets you scale up or down
- Create and manage external tables
- Support for split field operations
- Pivot/Unpivot and Transpose tables
- Simplified user security using Azure Active Directory

### The Matillion difference:

#### Easy to use

Stop fighting with antiquated UIs or unwieldy blocks of code. With easily approachable, low-code interfaces and powerful under-the-hood customization, get more people using and transforming data across your organization.

#### Built for the cloud

Designed for the cloud, Matillion ETL harnesses the native features and advantages of Azure Synapse through our custom-built push-down integration. We help data teams maximise the scalability, security and reliability offered by the cloud.

#### Built for the enterprise

Automate and orchestrate data ingestion and preparation at scale to reduce project development time with a unified experience for developing end-to-end analytics solutions. Gain instant clarity for your business with the freshest data available from your operational systems.

#### Transformative value

Matillion ETL for Azure Synapse helps data teams deliver continuous value back to their customers and organizations. Our fast-start pricing will have you up and running in minutes.

	Legacy ETL	Custom Code	Pipelines	Matillion ETL
